September 11, 2020

Dear Pacific Union Families,

I hope this letter finds you well and everyone is starting to adjust to this new school year. I know the start to our year has been very different and is definitely not ideal, but as usual I am so impressed by our Pacific Union Community. Our students, staff, teachers, and families have been very supportive and collaborative. As I have stated before we are in this together and we are grateful for your partnership in providing a distance learning educational model to our students. We cannot do this without you.

As we move through this school year communication will continue to be the key for us to be successful. I know everyone is very busy, but your feedback and input is invaluable. I would appreciate it if you take a few minutes to complete the survey [here](#). I am asking that you complete one for every child (I apologize, but it helps us address specific needs and feedback).

This year looks very different than last Spring and there are many new requirements that we must meet and adhere to from the state. We are trying to be as flexible as possible within these requirements, so if something isn't working for your families please don't hesitate to reach out to your child's teacher or administration.

At our school board meeting on October 8, 2020 we will reevaluate our delivery models for our students. At this time we will look at local data, state, and county guidelines to evaluate if we are ready to move into limited on-site instruction. We will evaluate having "learning hubs" on campus. This would mean we might be able to provide site-based instruction to small targeted groups of students. I am also updating our current blended learning plan (Plan B) to adhere to the new state guidelines regarding groups of students on a school campus.

As always, thank you for your continued support, understanding, and patience. We got this!

Sincerely,
Rene L. McBride
